## Plusnut® Fasteners

Call 800.236.3200  
to find a plusnut® for  
your application

# What is a Plusnut®?

*Internally threaded rivet with slotted body design*

*Install into thin sheet metal, tubing or plastics*

*The slotted body spreads into 4 "legs" on backside of parent material*

*The legs cover a wide surface to assure maximum pull out strength*

**Wide grip range for variable thickness materials & for part consolidation**

**Soft installation forces to avoid fracturing in soft or brittle materials**

**Available in steel, aluminum and stainless**

**Available in 6-32 to 3/8-16 & M4 to M10 thread size**

**Allows for blind installation, Installs in seconds**

### Legacy

Invented in 1936 by BF Goodrich  
Manufactured in Indiana

### Applications for Plusnuts®

Aerospace (e.g., instrument panel, seatbelt)  
Automobiles, motorcycles and trailers  
Appliances, electronics, enclosures

### Design Advantages

Installs cleanly without damaging  
parent material and finish  
Assemble two materials together  
Environmentally friendly  
Use in plastics and fiberglass

**ISO 9001:2000 CERTIFIED**
