MADE IN THE USA**

**RIVETS &
RIVET NUTS**

**INSTALLATION
TOOLS**

**SPECIALTY
FASTENERS**

**CUSTOM
METAL**

Need Custom Machined or Cold-Headed Fasteners?

Here's how Cardinal Components, Inc. can help you source the perfect solution:

1. Have a custom fastener blueprint?

Send it our way — we'll handle the rest, from a thorough engineering review to sourcing and final production, ensuring a high-quality result.

2. Working with a near-fit catalog fastener?

We can identify an existing part that's close to your specs and modify it to meet your exact application needs.

With **over 40 years of experience**, we've built a strong network of reliable partners in both catalog fastener manufacturing and custom machining/cold-heading. That means faster solutions, better quality, and the support you can count on.
